

Spore-Addict Times

MONTHLY MEETING:

WHEN? Tuesday, June 22, 2015 – The fourth Monday of the month.

WHAT TIME? 6:30 pm; The meeting will come to order at 7:00 pm.

WHERE? Bear Creek Park, Administration Building

Website: www.pikespeakmushrooms.org

Contact: PPMSmail@gmail.com

PROGRAM:

Vera Evenson will be our guest for June 22 meeting. She will speak about her work as curator at the Sam Mitchel herbarium, and her new book. She will also sign books for us.

Foray Report

June 6.

There was a scouting foray on June 6, by Hoa Pham and Michael Damelio. They found a few *Morchella angusticeps*, a very mature *Suillus*, and others.

June 14

No report was submitted by the newsletter deadline.

June 21

Next weekend will be a high point of 2015, PPMS. A chance to foray the day before our meeting with Vera Evenson! Forty copies of her new book will be available for members, Vera will sign books at end of meeting. Also, original books can be signed. Don't miss a chance to meet and enjoy a day with Colorado's premier mycologist! Foray will be at a special spot on Rampart, expect to find rare and interesting specimens. Location received 5" rainfall on June 11, and continues to rain there daily...! Unique conditions may produce new species and genus!

Photos by Hoa Pham, from the June 6 foray.

The Pikes Peak Mycological Society, a nonprofit organization dedicated to the advancement of mycology, publishes Spore-Addict Times monthly from April-September. Membership is open to anyone wanting to study mycology. Annual dues are \$25 for individual and family memberships (\$30 for a printed newsletter). **Submission of ideas, articles, reviews, letters, artwork and recipes are welcome.**

Last month's entry was *Poyporus arcularius*

Mystery Mushroom

I am very common this time of year when it rains a lot. You can find me among the pines. My cap is yellowish and sticky – about 6 cm across. My tubes are yellow as well. I have an equal stalk that holds my cap out of the ground by 5 cm – it is yellow as well with brown dots scattered over the lower part. You can eat me, but it may not be a very satisfying experience.

What am I?

The Spore-Addict times is the official newsletter of the Pikes Peak Mycological Society (PPMS) and is published monthly April - September. All articles appearing in this newsletter may be freely reproduced, unless otherwise noted, for use in other newsletters provided the source and author are acknowledged. We consider this to be a reciprocal agreement for clubs that send their newsletter to us unless we are advised to the contrary.
