

PIKES PEAK MYCOLOGICAL SOCIETY

ATTENTION ALL YOU MUSHROOM LOVERS: Now I ask you, has it been a good year, or has it????? Are your freezers loaded with delightful fungi, is your storage room draped with dried mushrooms hanging in an aromatic cloud, are your shelves loaded with canned delicacies????? If not, then you haven't been attending our "fruitful" forays. Thanks to Tedd Hinton, our Foray Chairman, we have been locating many edible varieties this year.

SEPTEMBER MEETING - September 28th. Phone: 633-9447

A Mushroom Tasting Pot Luck will be held at the home of Barb Laura, 3016 Wellshire Blvd., Valley Hi, Monday next, at 7:30. Please bring your own place settings, your own mushroom creation (either wild or domestic), and the recipe to share if you so choose. If you are unable to prepare something, a bottle of white wine would add a lot. NOTE: If planning to bring Agaricus Altramentarius, please advise. This is the time for Show and Tell. If you took any photos during the year of forays, or if you have been doing anything with paintings, ceramics, arrangements, etc. with a mushroom theme, bring the creations along and share your talent. P.S. Club furnishes coffee, tea & lemonaid.

OCTOBER MEETING - October 26th. Our last meeting til February 25, 1982.

Rastall Center, Colorado College, corner of Cascade & Cache la Poudre, 2nd floor at 7:30. We will view and discuss the collection of slides donated by George Grimes and others. If you have any to add to this permanent collection, please bring them. This will be a casual meeting and we will discuss how the club wishes to store the slides. They are currently filed by spore color. Perhaps we can discuss any questions concerning particular mushrooms you may have had during the summer. Darlene Hinton has volunteered to put these in order. If you would like to help her, please let us know.

CONGRATULATIONS to Glen Roberson. He has had a very successful open-heart surgery. We have really missed you, Glen. We hope you and Rosalie will join us Monday night.

CONDOLENCES to Leroy and Viola Garrett. They had a devastating chemical-smoke fire in their home that almost totally destroyed all their belongings. We are happy to report that it is now almost repaired and repainted, but many things are ruined beyond repair. We are truly sorry, Viola and Roy.

LIBRARY BOOKS - The Board suggested that all our books be brought to each meeting so that the members can check them out for one month only. Judy and Frank Urban have been our volunteer librarians. We covet any books you wish to donate.

REFRESHMENTS - Thanks to Judy Baranowski for the lovely Boston cream pies for July and a perpetual thanks to Nannie Lee Griffith for her work and donations. We would like monthly volunteers for the munchies.

MUSHROOM FAIR - The 6th Annual Mushroom Fair was a tremendous success and was held August 23rd at the Denver Botanical Gardens. Dr. Alexander Smith, wife Helen, and other Denver experts spent hours identifying fungi: 199 species identified, 25 species unidentified. Dr. Smith took home several basketfulls for further identification. Many were from our Club. The Fair also had numerous slide shows, arts and crafts, photography, books, and a poisoning exhibition. something for everyone. Mushrooms placed into families & species on long tables. Denver Club members manned the tables sharing interesting facts related to their particular species. Denver served us a scrumptious luncheon and we appreciate their hospitality. Plan to attend in 1982.....circle your calendar.
