

PIKES PEAK MYCOLOGICAL SOCIETY

NEWSLETTER

JULY 1983

JULY MEETING - Next Monday night, July 25th at 7:30 p.m. we will meet at Rasta Center, Colorado College. Lee Barzee, our Vice-President, has arranged to have Dr. James Matton, who is a Professor of Biology at U.C.C.S., speak to us on YEASTS, which are minute fungi. Dr. Matton was 15 years at Johns Hopkins University of Medicine. He has done research in molecular biology including genetic engineering. He also spent two years in Brazil. We are very fortunate to have such a distinguished professional in Colorado Springs to bring this program to us. Bring your summer houseguests along so that we may give him a big welcome.

JUNE MEETING - David Smith was our preview speaker. His topic was Agarics. It adds a lot to our own knowledge when we present the special mushrooms at our meetings - so don't hesitate to volunteer. George & Marie Grimes are so very special to take the time to come down and give of their vast knowledge. "Call of the Wild Mushroom" was very enjoyable with George's usual wonderful slides. Thanks.

NAMING THE NEWSLETTER - To add to the previous suggestions of "SPORE-ADDICT NEWS" and "PORES AND SPORES", we now have: THE SPORE, PORES & GILLS, SPORES, PORES & GILLS, MUSHROOM POINTS, plus whatever new one this brings to your mind. Call one of the officers and we will include your nomination. At this writing, I do not know if we will vote on it next meeting.

RAFFLE - As you know, we had a set of mushroom glasses to raffle last meeting. Noel Damon was terrific to take care of that department. May I also add that the same Noel Damon also won the glasses - hm-m-m-m-m-m-m-m-m-m-!. This same special Noel Damon filled in the blanks on our last newsletter and got it mailed to you whilst I was vacationing. Thanks Noel.

ADDITIONAL THANKS. We unabashedly asked Gary Crandall, Manager of Fittje Bros. Printing, if he wouldn't be crazy about printing our new membership cards. He did it gladly. They should be included with your newsletter. Don't forget his company for printing to show our gratitude.

CAMMY HALEY's contribution to the smiles department is "Mycologists are Fun Guys (Fungus)". Thanks Cammy.

Sat. FORAYS - July 30 - Saturday - Methodist Camp. Meet at Red Rocks Shopping Center at 8:00. Since we have been having poor to no-attendance, please call Don Berrigan if you plan to attend. Don - 597-4679.

Sat. August 6th, Sunday - Joint foray with Denver at Devil's Head Area (Rampart Range). Meet at Red Rocks Shopping Center at 8:00. Call Don.

August 13th, Saturday. Foray before the Mushroom Fair. Probably Mt. Baldy or Horse-thief Park. Meet Red Rocks at 8:00. Call Don

August 14th Sunday - Mushroom Fair in Denver.

August 19 - 23 - NAMA Foray

August 25 - 28 - Telluride ConferenceCall officers for details.

SEE YOU MONDAY NIGHT

SURPRISE RAFFLE
