

SPORE-ADDICT TIMES

JULY 1985 NEWSLETTER

The meeting for the month of July will be held as usual in Rastall Center on the fourth Monday of the month, July 22, at 7:30. The program for the month will be a showing of Don Berrigan's video recording of "Fungi, The Rotten World Around Us." This is a second chance for those of you who have missed this excellent show put on by the "Nature" TV series. The slide show last month on Poisonous and Hallucinogenic mushrooms was excellent, thanks again to Don Berrigan. The treasury is in need of funds to cover costs. A raffle is planned for the meeting so please bring your loose change and luck. Mike and Jenny Chladek and I attended the last meeting of the Denver Club. The program was by Linnea Gillman on mushroom photography and was excellent. Linnea also presented a procedure for documenting and describing a field specimen, including her photographic methods, to permit identification of the field find at a later time. We are trying to persuade Linnea to present her program for our group later this season.
